AMERICAN  
SOCKS

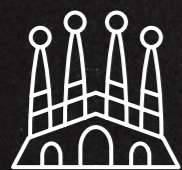

American Socks lives by the lifestyle of alternative culture and groundbreaking urban attitude through your feet. Established in 2013, the brand kicked off re-issuing and improving the classic striped socks used by early skaters back in the 80s.

We live and thrive by music and sport. That's why artists and athletes are the ones that inspire and lead our adventure.

We are proudly re-inventing the industry, pushing all boundaries and conceiving durable, high-quality socks and clothing that won't wear off or break down easily.

All concepts and design come out of our headquarters in Barcelona where our team guided by self-expression and creativity inspires in the millennial culture of the 90s while listening to a soundtrack of punk-rock and metal music to design striking apparel.

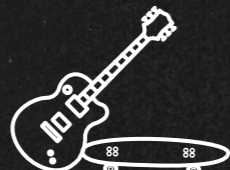

We are proud to have our sock manufacturing process made locally in Barcelona and Portugal. All our products are VEGAN, made under strict thoroughness using certified eco-friendly cotton and dyes.
